

“Advanced Breast Diagnostics”

-- Didactic Presentations and Workshop Sessions --

February 16th and 17th (Sat/Sun) 2008

Technopark Zürich, Switzerland

State of the art imaging - current status including MRI
Basic breast sonography
Ductal carcinoma in situ (DCIS)
Interesting mammogram workshop
MRI guided interventions
The male breast / the axilla
The role of imaging in breast conservation
The dense breast
Non-palpable breast lesion: Role of imaging in preoperative localization and in the evaluation of the excisional specimen
MRI-guided interventions (Vacuum aspiration and preoperative localisation) in Switzerland
Classification of microcalcifications of the breast
MRI of the breast - Clinical applications how to use BI-RADS
State of the art of ultrasound guided breast interventions
Surveillance after breast conserving and oncoplastic therapy
Indications, limitations and BI-RADS terminology of MRI
Current status of breast imaging
Avoiding unnecessary open surgeries
Ultrasound before axillary dissection or Sentinel lymphonodectomy
The technique of vacuum-assisted handheld biopsy
Imaging in the follow-up after breast surgery.
Diagnostic+/-therapeutic management of non palpable lesions
Management of high risk patients for breast and ovarian cancer
How to achieve the correct diagnosis
Round table MRI session: "avoiding false positive MRI-findings"
"Hands on" sessions

**The course will be presented by IBUS international faculty members
and breast disease experts from Switzerland and Germany**

**Guest Speaker - D. David Dershaw MD, FACR
Director, Breast Imaging
Memorial Sloan-Kettering Cancer Center, New York, USA**

Faculty Members

Allgayer Bernhard, Radiology, Luzern, Switzerland
Garzoli Elisabeth, Radiology, Zürich, Switzerland
Guntern Daniel, Radiology, Lausanne, Switzerland
Hilfiker Paul, Radiology, Zürich, Switzerland
Lepori Domenico, Radiology, Lausanne, Switzerland
Müller-Schimpfle Markus, Radiology, Frankfurt, Germany
Mundinger Alexander, Radiology, Osnabrück, Germany

Otto Rainer, Radiology, Zürich, Switzerland
Pilz-Lang Elvira, Radiology, Zürich, Switzerland
Porcellini Beat, Radiology, Zürich, Switzerland
Rageth Christoph, Senology, Zürich, Switzerland
Stoupis Christoforos, Radiology, Männedorf, Switzerland
Vlastos Georges, Gynecology, Genève, Switzerland
Zanetti Rosanna, Gynecology, Basel, Switzerland

INVITATION

We invite you to attend the “Advanced Breast Diagnostics” IBUS course to be held from 16th to 17th, February 2008 at the Technopark in Zürich, Switzerland.

The course consisting of didactic presentations and interactive “Hands-on” workshop sessions has been organised as part of a continuing medical education programme series by the International Breast Ultrasound School (IBUS) and the Swiss Society for Senology.

The experience and contributions from the multidisciplinary team of the international experts and Swiss faculty will ensure a high quality teaching programme.

We look forward to seeing you in Zürich.

Professor Dr. A. Munding
President - IBUS

Professor Dr. B. Allgayer
Swiss Society of Radiology

PD Dr. med. C. Rageth
Swiss Society for Senology

Early registration fee: SFr. 550.- (before December 31)
Standard registration fee: SFr. 650.- (after December 31)

On site registration fee: SFr. 750.-
or 275.-; 325.-; 375.- for residents (document of the employer necessary)

The registration will become active after payment has been received in Swiss francs at the designated bank account:

Züricher Kantonalbank, CH-8010 Zürich
BLZ: 700, Account: 1100-0435.033
PD Dr. med. C. Rageth, IBUS-SSS/SGS

Course Secretariat
